**CONSERVATORY/GLASS BUILDINGS CONSULTANCY**  
**Repairs, Base Reconstruction & Assessment**

We have gained enormous experience over 40 years during which time we are often asked to prepare detailed reports for extensions, sun rooms, and conservatories which have been poorly constructed or to prepare technical insurance repair details. We are supported in this structural engineer's whose technical reports will prove invaluable.

- Technical reports for arbitration
- Insurance assessment – liaison with loss adjusters
- Replacing incorrectly fitted lead flashing and cavity trays
- Underpinning inadequate foundations or complete base re-construction
- Sealing of leading conservatories and general refurbishment
- Supply and replacement of high quality double glazed sealed units where existing have broken down
- Upgrading of door and window locks to meet specific insurance companies security requirements
- Our expertise is backed by over 40 years extensive experience
- We cover Architectural Aluminium, PVCu and Hardwood designs
- Guidance on Planning & Building Regulations
- **CONSULTANT: Simon Morgan M.C.I.A.T. Chartered Architectural Technologist**
